

## *Partner Program*

### **About the Program**

The Green Medical Group Partner Program is an established "referral" or "affiliate" program that rewards Partners with generous compensation and unlimited income potential. Partners are compensated for every patient they successfully refer to our clinic that receives their medicinal cannabis authorization. We have a sliding compensation scale in place that rewards top performing Partners.

The Green Medical Group Sales and Marketing team utilizes a hands-on approach with all Partners, to ensure they are well-coached and trained for maximum patient referral. Our team also ensures our Partners have the marketing materials they need -- we provide a custom landing page on our corporate website for your use, as well as a starter kit of 250 business cards with your name and website URL for use.

### **About Us**

Green Medical Group is quickly establishing itself as the leader in providing professional and legally sound medicinal cannabis authorizations in Washington State. Our state-of-the-art, 24/7 Online Automated Patient Verification System is used by many practicing health care professionals in this industry. The patients in our network truly enjoy this added convenience, that other networks do not have.

### **Get Started**

Contact our team today to get started on the interview process. Our team can explain the compensation structure in more detail.
